PARAS GOEL

SOFTWARE DEVELOPER

+918865904192 | paras.work101@gmail.com

TECHNICAL SKILLS

- Problem Solving
- React.js, Node.js
- Firebase
- NextJs
- CSS, HTML, JavaScript, SCSS
- Core Java
- REST API
- SQL, MySQL
- Typescript
- Git, GitHub, Azure Dev
- Docker
- Data Structures and Algorithms
- OOP's and System Design
- Augmented Reality (Unity)
- Game Development (Unity)

PERSONAL SKILLS

- Creative Spirit
- Leadership
- Organized
- Time Management
- Team Player
- Fast Learner

LINKS

- Portfolio
- Github
- LeetCode
- Twitter (X)
- Linkedin

CERTIFICATIONS AND ACHIEVEMENTS

- Ranked under top 5 teams in Smart India Hackathon.
- Core Java certificate from ABES Engineering College.
- Cisco Certifcation in Introduction to Networking .
- Participated in Octernship by Github .
- Game Developer at GFG chapter at ABESEC.

EDUCATION

BACHELOR OF TECHNOLOGY, COMPUTER SCIENCE & ENGINEERING

ABES Engineering College | 2020 - Present
Percentage: 7.5 CGPA

CLASS XII (CBSE)

TRM Public School| 2019 - 2020
Percentage: 89%

EXPERIENCE

SOFTWARE DEVELOPER INTERN

INTEGRA CONNECT   **JULY-2023 - PRESENT**

- Designed and developed an **ETL** console application using C# to efficiently transfer data from Snowflake to the company's database.
- Successfully transfered over 2,00,000 of patient records from **Snowflake** into company's **database**.
- Transformed user interfaces with **ReactJS** , delivering a substantial 40% reduction in loading times.
- Enhanced user engagement through appealing UI upgrades, resulting in a notable **20%** increase in user interactions .

Technologies : ReactJs , C# , Snowflake , SSMS , SQL ,RestApi.

PROJECTS

VEHICLE CLEANING PLATFORM | LINK   **JAN 2023 - MAR 2023**

- Collaboratively developed a web-based application to facilitate the partnership between car detailing and washing providers, streamlining vehicle enhancement services.
- Designed detailed forms using **Formik** and **Yup** library} helped end-to-end validations, resulting in 30% reduction in unnecessary API requests.
- Successfully managed the platform to handle over 1,000+ bookings, demonstrating robust scalability and ensuring a smooth experience for a growing user base.
- Improved collaboration and communication skills to better grasp complex business requirements.

Technologies : ReactJs , TypeScript , Formik , RestApi , Redux, Jwt.

ECOMMERCE PLATFORM | LINK   **DEC 2022 -- JAN 2023**

- Created a full-fledged E-commerce application offering a wide range of clothing items and seamless payment processing for an immersive online shopping experience.
- Implemented secure Google **Authentication** Sign-in to ensure user data privacy and enable hassle-free access to the platform.
- Effectively managed the application's state with the Context API, ensuring smooth data synchronization and improved overall performance
- Designed a user-friendly and responsive interface using Tailwind CSS, prioritizing optimal usability and an engaging shopping environment.

Technologies : Firebase , React , Tailwind , Material Ui , ContextApi.

AUGMENTED REALITY APPLICATION | LINK   **DEC 2022 -- JAN 2023**

- Developed an immersive Augmented Reality (**AR**) application using **Unity**, designed to provide users with an interactive and educational journey through the solar system.
- Implemented real-time tracking and precise object recognition, enabling users to seamlessly interact with and learn about celestial bodies such as planets, moons, and asteroids in a captivating AR environment.
- Designed an intuitive and user-friendly interface (**UI**) that allows for effortless navigation, ensuring that users of all ages and backgrounds can enjoy and learn from the AR experience.

Technologies : Unity , C# , Blender , URPL in Unity .
